Dewey and Merritt Want to Know How to Treat Them.

FEAR THEY MAY INITIATE CUBASS.

The Administration's Instructions Are That the Incargents Must Not Enter Mastle-Will Receive the Seme Trustment as the Spanistes.

WASHINGTON, Aug. 12.—The two American commanders at Manila, Admiral Dewey and Major General Merritt, united in a joint dispatch which was received here late yesterday aftertoon asking for instructions as to the manner of dealing with the various 414ments, particularly the insurgents. now hat the city is occupied by the Amerhan forces. After a conference at the White House, in which Secretary Alger and Acting Secretary Allen participated, instructions were sent to the two American commanders. The text of the request for instructions and of the answer was not made public, but Secretary Alger summed up the instructions substantially as follows:

The instructions are to enforce law and order and to treat all law abiding

citizens alike."
The instructions are practically the same as those sent to General Lawton. The latter order specifically stated that the insurgents must recognise the milltary occupation and authority of the United States and the cossation of hostilities proclaimed by this government. Doubtless the same rule is being applied to the insurgents under Aguinaido, although it was not omcially stated that such specific orders were sent. It is said the joint dispatch from Dewey and Merritt did not in terms refer to Aguimalde, nor did the instructions mention the insurgent leader by name.

It is well understood, however, that the desire of the American commanders was to have instructions on the manmer of dealing with the large and menacing force of insurgents under Aguimaido who have surrounded Manila for many weeks and who, it is thought, may or have demanded the right to occupy the city with the American forces as the Cuben insurrents and at Santiago. It had been thought in some quarters here

that the showing heretofore made by the impressit would lead to their reof a certain amount of recognition in the way of joint action between the United States forces and those of the Newspaper ARCHIVE®

tion official summed up the situation:

There shall be no joint action except hotween Morrice and Dewey. They will maintain law and order and will treat Insurrents and Spaniards alike, require ine all to observe peace and order." It was noted that neither the first dis-

patch of Admiral Dewey nor the Joint disputch of Dewey and Merritt made any reference whatever to the part which the German cruiser Kalserin Aurusta took in tem-wing Captain General Augustin from Manile to Hongkong. From this the officials believe that the American commanders do not attach perious significance to the course of the German mavel authorities. The incident continues to cause some irritation here. hut It is practically certain that no official cognizance will be taken of it. A high official of the navy department said that at most the course of the German maval commander was one of bed taste. There is no disposition in any official quarter at present to carry the incident to the point of considering it a brench of neutrality, as has been suggested in some British gewapapers.

RENT PLOWERS FOR HOUSES.

Ethtus Propeleton Suffet Lott (1 Statement Through the Advent of Summer Manths.

This is the season of the year when keepers of hothouse flowers, who thrive in winter, are practically without employment. There are more than 20 concerns in Chicago that make a business of renting potted plants. palms and other interior decorations to restaurants, eafer, ralooms, and to families. These plants are changed es often as wanted. One day there may be one of the waving pampus plumes, and in the same place the day following may appear a blooming geranium. The uninitiated would imag-

dance. There may occasionally be found magnolia blossoms, for they are plentiful on the bayous of the south this season Then there are the native roses and daffodils and dandellobs that give fragrance and take the room of the potted plants, which do very well in winter, but look out of place when the air is woft and balmy and the trees

The Eighth Ohlo will leave on the Mohawk. One company of the Thirty-fourth Michigan regiment will go tomorrow morning to Guantanamo bay for transportation on the United States steamer Resolute.

Over 600 refugees from the province of Statiago have returned within two days from Jamaica. They are mostly planters and their families. The authorities are finding great difficulty in maintaining discipline in the city.

The immune soldlers are causing much trouble, and, though the city is being patrolled by the Eighth Ulinois regiment (colored), it will be necessary to supplement them with a special organized police force.

Grand Review of Troops

WASHINGTON, Aug. 18.-President McKinley has decided that he will review the soldiers now at Montauk Point. The date for the review has not been fixed, but will take place as soon as the soldiers begin to recover from the diseases contracted in Cuba.

The president told General Wheeler yesterday to return to Montauk camp and get the soldiers in good condition as quickly as possible.

General Wheeler was instructed to do everything possible to speedily bring the men back to health. Practically all his time will be devoted to looking after their condition.

The great review will take place in New York. General Shafter will arrive in time to take part,

WASHINGTON, Aug. 18.-The war department today received the following dispatch from General Shafter,

dated Santiago de Cuba, Aug. 17: "Major Miley has just returned from Baracoa and Sagua de Tanamo. At the two places there were 1,756 officers and men surrendered, 2,321 stands of arms and 413,000 rounds of ammunition, five Krupp guns, ranging in caliber from 5 inch down to 2 inch. Troops were very short of food, but 15 days' rations were given them by Major Miley and a large amount of Red Cross supplies landed at the same time at both places. These troops knew nothing whatever of the destruction of Cervera's fleet, the fall of Santiago or any later events. They accepted the situation, however, and appeared to be glad at the opportunity of getting home.

"Major Miley states that on the door of the commanding officer was posted a bulletin purporting to be a telegram from the naval commander at Manila informing Sagasta of his great victory over Dewey at Manila and Sagnata's thanks to him for the same. Country in the vicinity of these towns in the same condition as that here—utterly destroyed. Inhabitants said that in 18 months they would be able to harvest their crop of bananas, which is the principal product of Baracoa. A regiment of .nsurgenss was found in the vicinity of each place camped within a few hundred yards of Spanish troops, calmly observing each other."

Kennedy Held Without Ball.

NEW YORK, Aug. 18 .- Dr. Samuel J. Kennedy, the dentist whom the police accuse of the murder of Emeline C. Reynolds, has made a strange statement to his accusers. For four days, he says, his mind has been a blank, and he has absolutely no knowledge of the events of those four days. Where he went, what he did or whom he met during that time he is unable to say. What his malady was he does not say, nor has he given any clear idea of the incldents leading up to it. He has been committed without bail by Magistrate Simms for examination tomorrowmorning, and so confident are the police and the district attorney's office that they have a perfect case that they immediately went before the grand jury and asked for an indictment. Captain Price said yesterday that he and the detectives had amassed a lot of evidence against the dentist of a damaging na-

Special Session of Jersey Supreme Court. TRENTON, Aug. 18.-The object of the special session of the supreme court called for Sept. 2 is to straighten out the state of affairs in Dover, where the city government was recently declared unconstitutional. The city officials have ignored the court's opinion and appealed the case to the court of errors. The special session of the supreme court will decide whether this appeal acts as a stay and permits the city government to continue pending the court of errors' decision.

Epidemie of Fires on the Continent. LONDON, Aug. 18,-From various points on the continent, in addition to Nijni Novgorod, Russia, reports have heen received of serious confingrations. Extensive forest fires are razing in the mountains near Ferrol, Spain. At Schaerbeck, not far from Brussels, the St. Marie market place, a large building, and seven houses adjoining were burn-•d. with an estimated loss of \$50,000. The Estival military equipment factory at Lyons was also destroyed by fire
